Date: 12.08.2016

Subject: Extension of concurrent running period of IS 16046:2012 and IS 16046:2015 - Secondary Cells and Batteries containing alkaline or other non-acid electrolytes

This has reference to the Guidelines for Implementation of Revised IS 16046:2015/IEC 62133: 2012 superseding IS 16046:2012/IEC 62133: 2002 issued vide circular reference IS16046/Policy dated 09 Feb 2016 wherein the concurrent running of both the Indian Standards was permitted till 16 Sept 2016.

The period of concurrent running of IS 16046:2012 and IS 16046:2015 has now been extended upto 31 August 2017. Accordingly IS 16046:2012/IEC 62133: 2002 shall stand cancelled after 31 August 2017.

The following changes are made to the existing guideline in this regard:

1. The date for acceptance of hardcopy of the applications for Grant of Registration and Inclusion with IS 16046:2012 version test reports will be only upto 31.03.2017. Even if the test report has been issued by the Lab prior to 31 March 2017, such cases shall not be accepted if the hardcopy is received after 31 March 2017. Applications/Inclusions as per the new version only will be accepted after 31 March 2017.
2. For Applications submitted as per the old version, if the manufacturer fails to get Registration before 31 August 2017, such Application(s) shall be processed for closure/rejection as per norms.
3. All registered manufacturers shall switchover to the new version IS 16046:2015 on or before 31.08.2017. In case any Registered manufacturer fails to switch over to the revised version on or before 31 August 2017, steps would be initiated for cancellation of such Registrations.

The models which have been changed over or included as per 2015 version shall only be allowed to continue in the scope.
5. The other procedures for the changeover remain the same as per the earlier guideline IS16046/Policy dt. 09.02.2016.
