

Online Submission of Applications for Product Model Inclusions

In the BIS portal for Registration, provision has now been made for submitting the requests for inclusion online. Inclusion work area can be accessed after login to the portal using the existing username and password. All registered manufacturers are requested to submit the inclusion application online through BIS portal. With effect from 1 October 2015, inclusion requests will not be accepted without online submission of the application. Physical documents shall also be submitted to BIS within 15 days after online submission.
